

A Visual Representation of Pre-requisites

The Management Major Requirements (Foundation and Core)

MAP:
Management Achievement Program
Completion of at least 80% of your required MAP Miles is needed before registering for MGT 490. To see your MAP requirements, progress, and options for fulfilling MAP miles log into UMBelInvolved and look at your Path.

- Each solid arrow represents a pre-requisite.
Example: AF 210 must be taken before AF 211.
- A dashed arrow connects classes that can be taken concurrently.
Example: MGT 331 can be taken along with MGT 490 or prior to MGT 490.
- There are four courses that are determined to be equivalent to MSIS 111L, Managerial Statistics, that do not have MSIS 110 as a pre-requisite (ECON 205, MATH 125, PSYCH 270, SOCIOL 350). If one of these alternative courses is taken, MSIS 110 is still required before taking MSIS 212.
- 300-level courses in Management departments (AF, MGT, MKT, MSIS) require completion of MATH 134 or progress in MATH 115 or MATH 129. If MATH 134 is not complete, you will need to enroll in MATH 115 or MATH 129, then request enrollment into 300-level courses using the online Undergraduate Registration Request Form.
- A grade of B- or better is required in BC 290 to satisfy the pre-requisite of MGT 303, 330, MKT 301.
- A qualifying score on the CMWA is needed to place into BC 290. Some students may need to take BC 230 and earn a B- or better in that course before advancing to BC 290.
