What is this workshop about?

Have you ever thought about writing a **research literature synthesis** but weren't sure how to begin? Participants will learn (or review) qualitative meta-synthesis methods to find, code, and report on literature. You will have opportunities to apply these methods to *your topic of choice* with support from the IMS Team.

The hands-on, intensive workshop will cover:

- processes for literature searches and selection
- deductive, inductive, and hybrid coding
- thematic analysis
- synthesis manuscript writing

Outcomes include:

- refined meta-synthesis skills
- tangible progress on your own synthesis topic

Tuition is free for all. Travel/lodging support is available for participants traveling from outside the Boston area!
